**DETAILED ACTION**

***Reason For Allowance***

1. The following is an examiner's statement of reasons for allowance:

The cited art of record fails to teach a high-efficiency power supply apparatus used with a driving system driving a display panel, comprising a direct current power supplying circuit to improve a power factor by rectifying an alternating current power with reference to a first ground, and generating a first direct current power not isolated from the first ground of the alternating current power, and a second direct current power isolated from the first ground of the alternating current power and with reference to a second ground that is electrically blocked from the first ground; a display panel driving circuit to generate various driving signals to drive the display panel with the first non-isolated direct current power; and a video signal processing circuit to perform a predetermined video signal processing to generate data to drive the display panel with the second isolated direct current power with a combination of all recitations as defined in claim 1, 11, 18, and 26.

Therefore, claims 1 to 27 are presently allowed.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
